

## NEGEV-ISRAEL RESETTLEMENT PROJECT

### Project #001

#### **AFFORDABLE HOUSING**

6 units of housing: 3 2 bedrooms and 3 3-bedroom

#### **LOCATION**

Yeruham (Negev Region, Southern Israel)

Homes would be in an established neighborhood

#### **WHO BENEFITS**

Affordable housing is needed for new immigrants and low-income families resettling in Yeruham. We are working together with the town of Yeruham to broaden its housing availability and desire to integrate new immigrants. Housing is scarce and affordable housing will enable families to come to this community.

#### **UNIQUENESS**

This project will serve as a pilot project for future housing in Yeruham, and we are working in conjunction with the municipality. The pathway of future building will be established as the dynamics of building in Israel are met on a smaller scale. This project is a vital first step to opening the door to preparing for many to come and settle in the Negev.

#### **PROGRAM**

Not only will the building process be established within Israel but the criteria for ownership/lease will be initiated and implemented.

#### **ESTIMATED COST**

6 Homes - \$660,000 - Single Home - \$110,000
